THE NATIONAL RIPLES

have completed the arrangements for the participation of that organization in the Estimore Grand Army of the Republic parade on the 21st instant. Orders have been issued by colonel Estraine for the command to assemble in its amony on Wednesday morning, at 6 o'clock sharp, in fatigue uniforms and summer helmets, and at 6.39, headed by Doneh's Band, it will march to the Estimore and Potomae Raliroad depot, and leave on a special train at 7, arriving at Calvert Station, Baltimore, at 8.15. The command will be marched at once by the Carroliton Hotel, the headquaters of the Riffes wide in Baltimore, and nere they will stack arms, break ranks, put on dress uniforms, and take breakfast. At 9 o'clock the march will be resumed for South Broadway street, where the parade will be formed. When the parade is dismissed, which will be between 12 and 1 o'clock, the Riffes will return to the Carroliton and rest till 2 o'clock, when they will dime. But the stems as may sait them up to 10 o'clock, at which hour tiety will assemble at the Carroliton, form line, and march to the Calvert Station, Baltimore, and Potomae Raliroad, and take a special train at 10 o'clock for Washington. The officers of the Riffes were agreeably sure issely esteroay to learn that a "Critzous Hospitality Committee," of Baltimore, had visited Major F. W. Coleman, proprietor of the Carroliton Hotel, and informed him that they would settle the Riffes bill at his house for breakfast and dinner, including the band. It seems this committee waited to ascertain what the Riffes wanted while in the city and then assumed the bills, and it is understood this will be done at the other locks for the visiting military organizations. This is the citizens hospitality, and entirely outside of what will be dispensed by the Grand Army of the Republic of Baltimore.

Storm and Flood Signals by Telegraph and Cannon.

To the Editor of The Republicant.

On yesterday my article on this subject was published in the Capital, in which I stated that, "nearly every day for the next four months the telegraph and press will recount the great loss of lives and property by tornadoes and sudden floods in some part of the country and in Europe. And all this loss without any possible warning from the present government system by publication in newspapers and maps." There was no risk in this statement, as it occurs every summer, caused by heat; but it was rather a remarkable coincidence, when the papers, on the same day, announced destructive tornadoes at Leavenworth, Kansas City, and St. Lonis, where the wind blew sixty miles an hour, causing considerable loss of life and property. Now, suppose that either of these tornadoes had swept through a port on the lakes, the Atlantic, or the Gulf, filled with sailing vessels and small craft, in which were thousands of men, women, and children, the loss of life and property would have been appalling. But, by giving half an hour's general warning by my plan, an opportunity would be given the shipping to prepare, and the small craft to reach places of safety, by which most of these lives and property would be sived. And there are hundreds of other circumstances, in which a certain, instent, and general warning, by the telegraph and cannon, of all coming storms and sudden floods would be of immense benefit to mankind, notably during haying and harvest. The attention of the Secretary of War, the Secretary of the Navy, and especially the entire Congress is called to these facts.

THE GRAND JURY AND THE JAIL. High Living to Be Supplied the Unforta nate Ludies and Gentlemen Residents, The grand jury on Saturday made the report of their recent visit to the jail public. As intimated in The Republican a few days ago, the examiners express themselves satisfied with the general management of the inciliution and the treatment. ment of the prisoners. They took exception to some of the articles of diet supplied the prisoners, and it is said made the following recommenda-

tions:

That the prisoners be supplied with terrapin, green turtle, and canvas-back duck when in their respective seasons. That a quart of yellow label be issued to the incarcerated ladies and gentlemen every other day, and on Studdys an extra pint be added. That in place of coffee, now issued to the men for breakfast, claret or choeslate, at the option of the prisoner, be substituted. They find that neither ice cream nor strawberries and cream are included in the meals now supplied prisoners, and call attention to this very grave omission. In regard to the cells, they strongly resommend that no prisoner, who has any respect for himself, can inhabit them with any degree of comfort unless the floors are tiled the bars nickle plated, and make it is a supplied to each bed. Several other very important recommendations of a like nature are made.
